in mind

LED work light features

Light module

Boost light

Maximum light output (in lumen)

Eco/dimmed light

Light output during power save mode (in lumen)

Spotlight

Additional small light to reach confined spaces (in lumen)

Operating time

Operating time during one charging cycle

Beam angle

Angle of the main light beam

Pivoting light module

Flexibility of the work light thanks to pivoting light module

CRI

High Color Rendering Index (CRI) reveals the true colors of an object, as if seen with natural light

UV light

UV light helps identify leakages

Zoom light

Change the focus of the light beam by simply turning a knob

Smart, ergonomic design

Grip

Robust ABS* and soft rubber body to hold the work light securely

Telescopic mount

Integrated telescopic hooks extendable on both sides

Motion detector

Switch the light on and off by moving your hand in front of the sensor

Find My Device

The remote control accessory helps retrieve lost devices up to 10 meters

Sliding light

Slide the light module along the mount to the area you want to illuminate

Presence sensor

Presence sensor that senses human activity within a 2.5-meter radius

Robustness and durability

Ingress protection

Degree of protection against intrusion from solid objects, dust, accidental contact and water

Shock protection

Degree of protection against external impacts

Grease resistance

Highly resistant to grease and workshop solvents

Power options and recharging

Charging time

Time needed to fully recharge the integrated battery

Micro USB

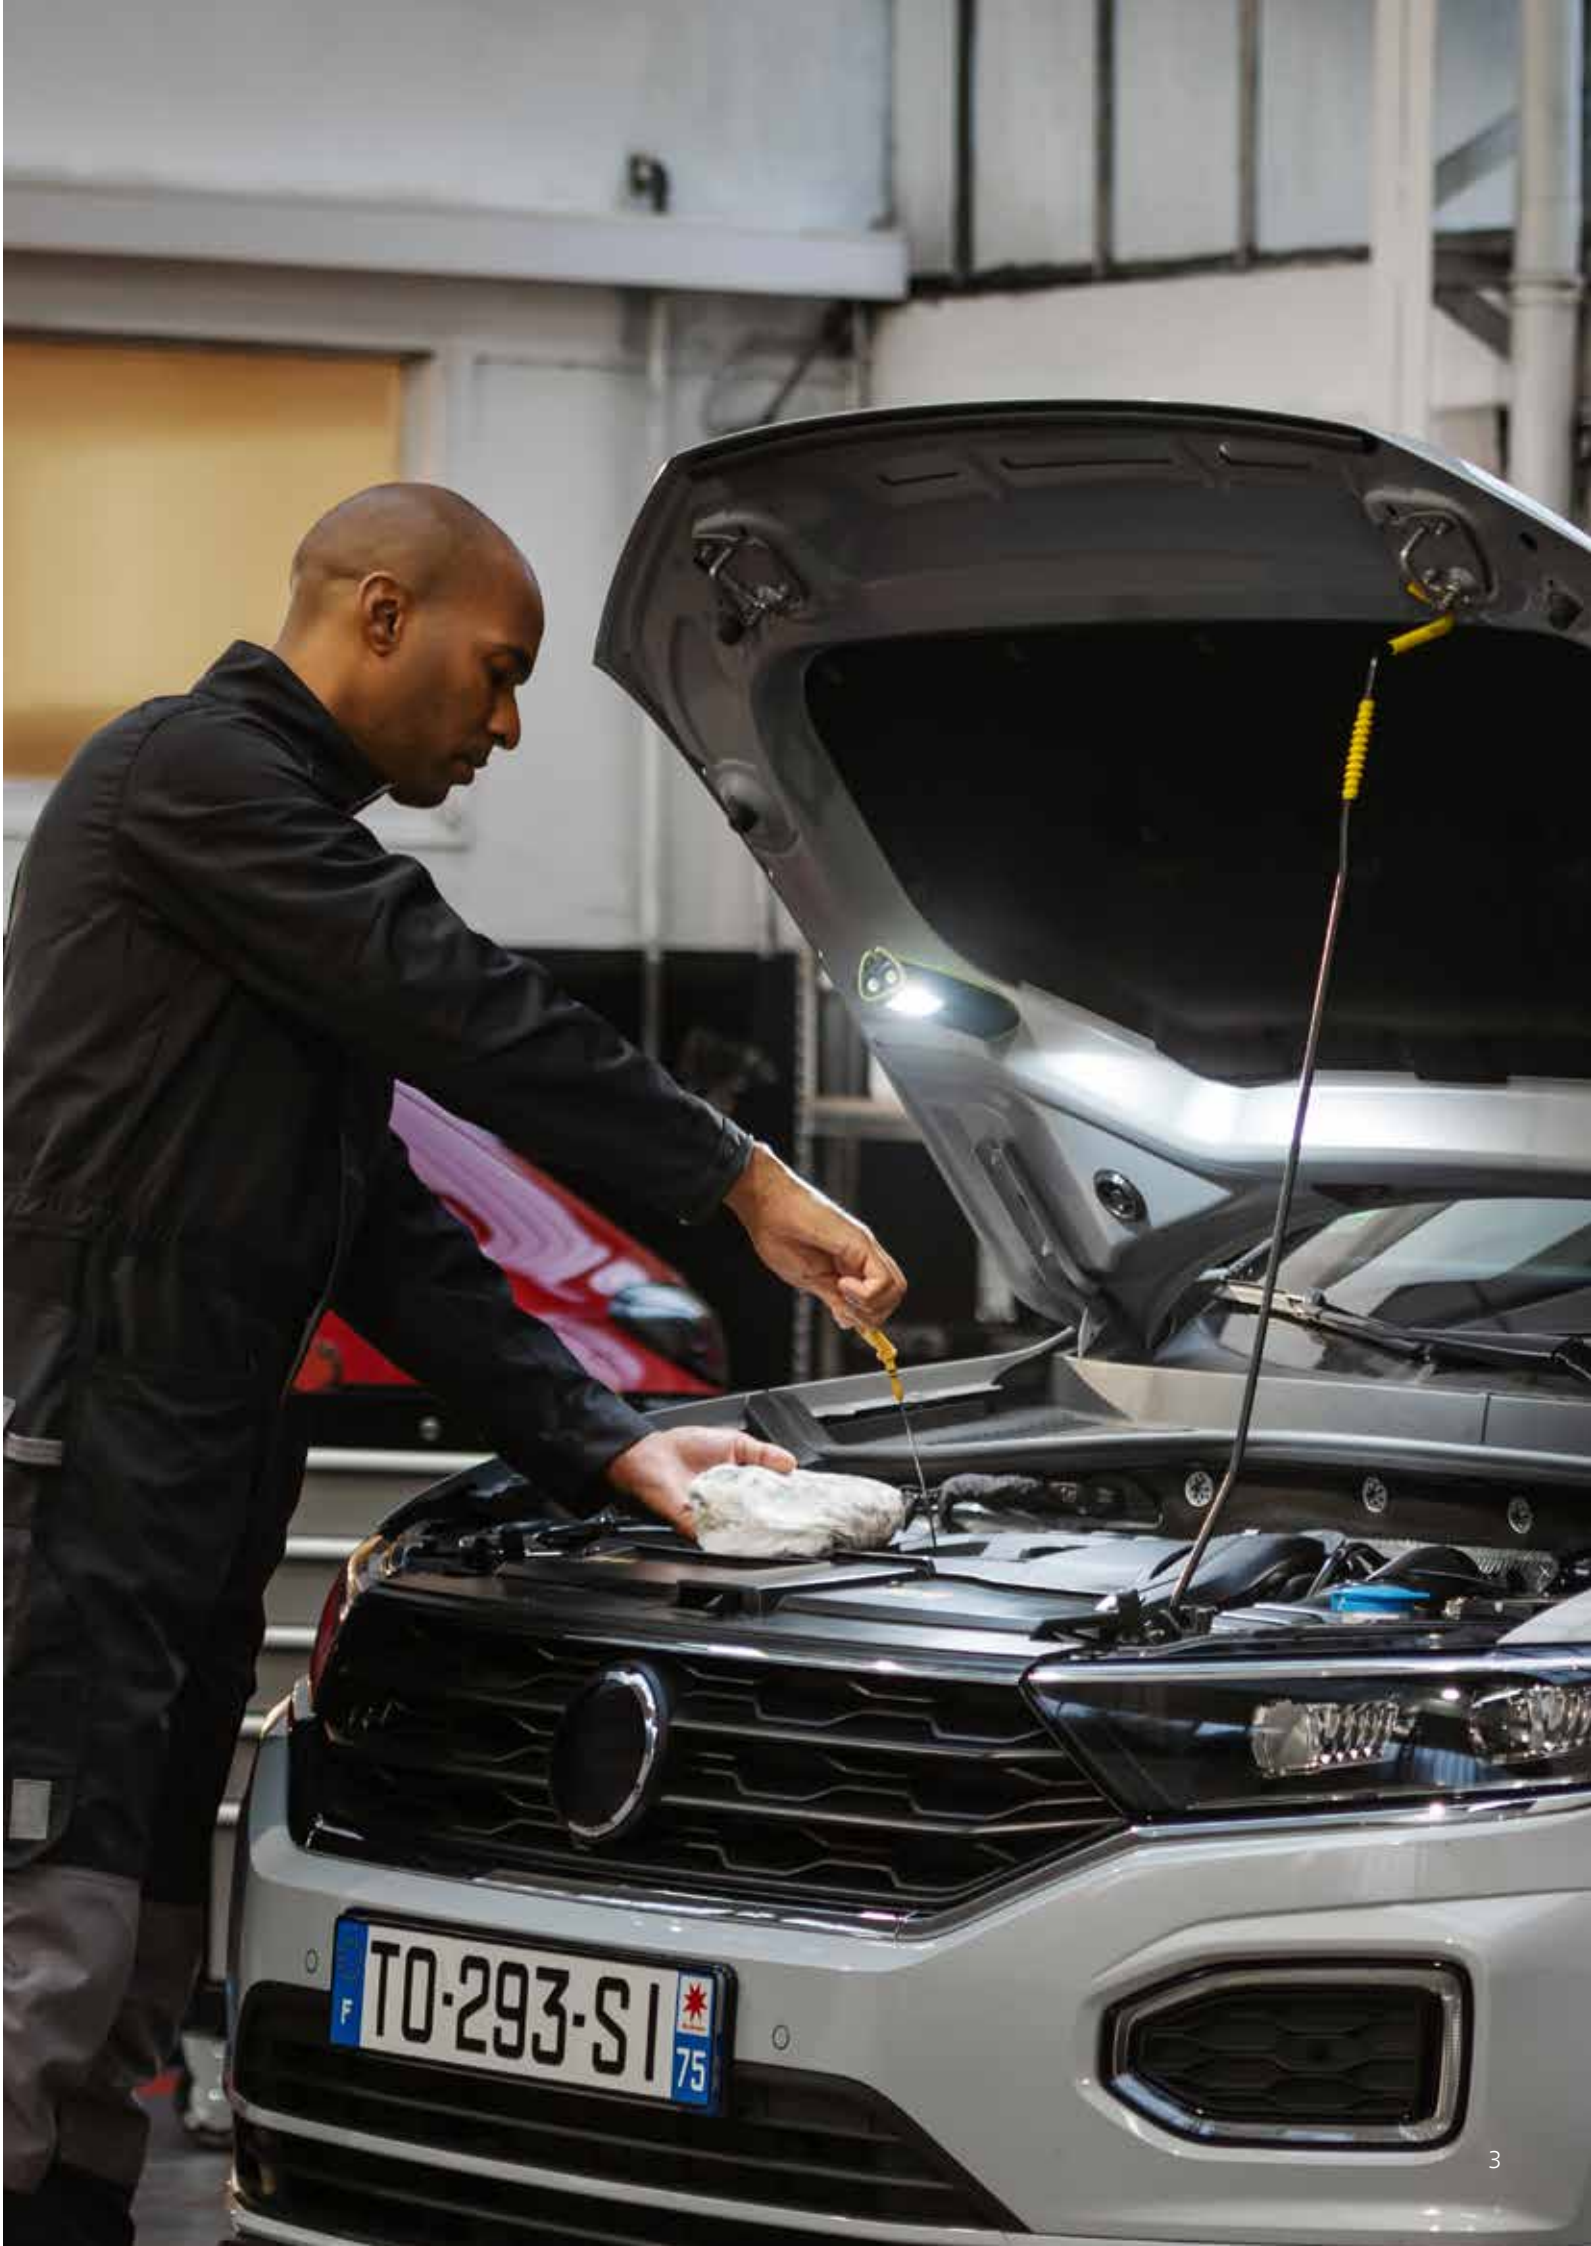

Battery rechargeable via a USB Type-C or Micro USB

Charging station

Compatibility with the Multi Dock Station** accessory for cordless charging

*Acrylonitrile-butadiene-styrene copolymer
**Accessories to buy separately
